NO. 34

Ex Army Officer Confesses Murder Of Bride and Man In Fake Hold-Up

A hero yesterday, Carl Wanderer of Chicago, is being held by the Chicago police, the confessed slayer of his wife, Mrs. Ruth Wanderer and an unidentified man. Wanderer was formerly a lieutenant in the Army having won his commission, the Distinguished Service Cross and the French War Cross on the battlefields of France.

Wallace Graham Attractions

Listed To Appear Here Soon

Mr. Wallace Graham was in town last week, and after renewing acquaintance with us, gave us the good tidings that we are to be favored sometime this fall, with the full quota of the famous "Wallace Graham Attractions". The dates have not yet been definitely settled, but we understand the entertainments will be run either in September or October. The list of attractions include the following: "The Maple Leafs", "The Victorians, Serenaders", "The Canadian Juveniles" of Winnipeg. The "Toronto Ladies Quartette" Joe Williams the celebrated English Comedian, with his all-Star British Company, and last, but not least, the ever famous "Fox Pan Company".

The Big Hull has been engaged for the series, and a good time awaits those whose who are fortunate enough to be present at these splendid entertainments. We would advise all those who possibly can to make an effort to be present at all of them—they are all worth while.

Harvesting in the district is now in full swing. The majority of the rye has been cut, and in most cases, the farmers have pulled into the wheat. As stated before, we are not expecting a phenomenal crop, but in a lot of cases, the yield is expected to reach 30 bushels to the acre. Poorer crops are reported between here and Provost, but north of Provost crops are good.

School Notes

In the list published in Edmonton Bulletin, under date of Monday August 9th, of scholars passing successfully in the Departmental Examinations (Grade 8) appear the following names of those who wrote at Monitor: Tom Wheeler, Marjory Teetzel, Shirley Teetzel, Muriel Lewis, Jameva (Janeva) MacDonald, Agnes Steele.

To the scholars who are desirous of procuring Text Books etc., we wish to say that we have the latest list of School Books, Literatures, etc. from Christies Book Store, at Brandon. Anyone desiring to peruse the same is welcome to do so.

New School Principal

W. F. Hargrove, Esq., B. Sc. the new Principal of Monitor School, arrived in town on Saturday last. He, with his wife, will occupy the house of C. C. Vanhorn on the east side of Town.

Mr. Hargrove comes to us with the strongest recommendations. His last position as principal of the School at Cowley, Alta. A good sportsman and a good disciplinarian it is felt that his services on the teaching staff of the school will do much to benefit the whole community. The News, on behalf of the community, extends to Mr. and Mrs. Hargrove the welcoming hand, and wishes them every success and prosperity during their sojourn here.

Local Happenings

Monitor School Reopens Monday next August 16th

Miss Anderson is visiting the Misses Martin for a few days.

Heard from Rev. W. S. Wickenden this week. He is well, and is busy as usual.

Mr. Tapley, of the Union Oil Company, was in the district the early part of the week.

Dr. J. J. Knoll, of Provost Alberta, was a brief visitor here on Friday of last week.

The Monitor Ball team journeyed to Gooseberry Lake on Sunday last, and took the short end of a game of ball with Neutral Valley.

Mr. Wm. Miles, of Provost Alberta, was a visitor here on Sunday last. Bill came down to buy a gun, and didn't go away disappointed either.

Miss R. Cameron, stenog at the local branch of the Canadian Bank of Commerce, returned to her duties on Thursday of last week. We are pleased to report that her mother is much better. Miss Cameron was called home on account of her mother's illness.

Mr. P. Moth, our station agent left on Saturday last for his holidays. He will visit amongst other points, Chicago, Windsor, Toronto and New York, and on the whole, expects to have a whale of a time. Doubtless he will. During his absence, Mr. Jones will act as relief agent, Mrs. Jones is also with her husband.

We had a letter from W. S. McCulloch last Tuesday. Mac wrote us from Calgary, at which point he is staying for a short while. He has a good job these days, as he is inspecting the various makes of machines used by the I. H. C. throughout the district.

Oil News

Work was commenced this week by the Union Oil Company on their site just south and east of town, across the track. Shacks are being erected for the workmen, and it is expected the main part of the machinery will be here in a few days.

Mr. and Mrs. Damas returned to town on Saturday last from Calgary. The West Regent Oil and Development Company's operations are being temporarily held up on account of a breakage of some machinery. They are down about 300 feet.

PURSE FOUND

Ladies purse found in Olsons Hardware store. Owner can have same by proving property and paying for this ad.

Doug And Mary Royally Greeted In England on Their Recent Visit There

Douglas Fairbanks and his bride Mary Pickford getting their first glimpse of London from their train drawing into Waterloo depot from Southampton. Doug and Mary received a royal reception, several thousand admirers being on hand to greet them. Doug had to lift Mary to his shoulders to get through the crowd.

Girl Falls From Window Escaping

From Coronation Hotel Clerk

The Church and Its Work

By Rev. W. S. Wickenden, B.A.

The work of the Church of the Lord Jesus Christ, for ministers and people, is to give witness to His power to save, to guide, to sustain, and to keep. Immediately before His Ascension He said to His disciples "Ye shall be witnesses unto Me" The only hope for this disturbed world is a greater number of people becoming whole hearted witnesses for Christ. The first step is to seek forgiveness of the past, and the second step is to determine in His strength to be a living witness for Him in the days to come. It is those who belong to Christ, those to whom He is a vital power and a continual inspiration—whose influence for lasting good really counts. That influence is often underestimated, and often unaccounted for, but because it emanates from lives consecrated to Christ it is a regenerative power. Those who belong to Christ are partakers of the "life which is life indeed" and their own lives of necessity bear witness to Christ.

FARM Wanted—I want to hear from party having farm for sale. Give price and description. John W. Wait, Champaign, Illinois, 33-34up

allowed to exist. Not only does it give town in which this particular hotel is situated a bad reputation, but all hotels along the line are liable to be viewed in a similar light by the travelling public.

From information recently received at this office, it would appear that drastic changes are needed in the management or staff of the Coronation Hotel

We are informed that during the early hours of Saturday morning last, the night clerk of the hotel caused considerable annoyance to two young ladies, who were occupying single rooms on the second floor, by rattling the door-knob, and shining his light through the transom. So persistent were his unwelcome attentions, that eventually one of the young ladies, who is visiting friends in the Consort district from Ontario, became slightly hysterical. She held a brief conversation with the young lady in the next room, through the open window, and the outcome was that the fire rope was slung from one window to the other, and the young lady endeavored to climb, hand over hand, to the next room, for the additional protection it would afford. Unfortunately however, the rope was insecurely fastened and slipped, and the girl dropped to the ground below. Luckily, no bones were broken, but she sustained a severely sprained ankle.

In the morning the manager of the hotel tried to bluff, but his bluff was called, and the police notified but insofar as we can ascertain, no action was taken by the police.

It is indeed a lamentable fact that such conditions in public houses of this description are

[continued previous column]

Crop Average and Crop Yield

Addressing the Canadian Club of Regina during the week of the Provincial Exhibition, Dr. Tolmie, the Dominion minister of agriculture, laid emphasis upon the fact that, despite a steady and really large increase in acreage under cultivation in Canada during the last ten years, there had been a marked falling off in yield per acre, with the result that the farm production of the country had not grown in volume to the extent that might have been expected from the increase in acreage placed in crop.

Commenting on this disappointing result the Federal minister of agriculture said: "An increase of three bushels to the acre in the production of wheat in Canada would mean an annual increase of over \$118,000,000, and over \$500,000,000 could be added to the wealth of the country every year if the farmers would exercise more intelligence and enterprise in their agricultural operations."

These are startling figures even in this age when we have become accustomed to reckoning things in the millions of dollars. And Dr. Tolmie was speaking by the book; the official statistics of Dominion and provincial governments bear out the assertions he made.

It is assuredly in the interest, not only of the country as a whole, but in the interest of the individual farmer that the causes of this decline in yield per acre should be ascertained and steps taken to check its further progress and to bring about a steady increase in yield. There is far more money, and infinitely larger profits, in increasing the yield per acre than in largely increasing the number of acres in crop which produce a comparatively small yield.

Dr. Tolmie suggested certain remedies. "First, a large increase in yield can be obtained from a more general use of good seed. Second, an intelligent rotation of crops will inevitably produce larger yields. Third, the introduction of more live stock on the farm will tend to the same much desired end.

There are other points which Dr. Tolmie did not dwell upon, but which must suggest themselves to any person journeying through the grain fields of the West and along our country roads. First and foremost there is the question of weeds. Western farmers spend huge sums of

money annually in hail insurance premiums, but the annual loss from hail is but small in comparison with the annual loss resulting from the decreased yield because of weeds. Thousands of dollars are spent annually in fighting the gophers, and in Manitoba and Saskatchewan this year hundreds of thousands of dollars have been expended in the effort to overcome the grasshoppers. And it has all been money well spent. But year after year weeds take a greater toll than these pests without half the excitement or effort to eradicate them and stop the loss.

In many directions government and farmers' organizations are striving to improve the condition and advance the prosperity of the farmers, but thousands of farmers are themselves neglecting a matter the control of which is in their own hands. They are growing weeds instead of wheat, oats, barley and flax. Where there is an abundant crop of weeds there cannot be a heavy yield of grain. Sooner or later the whole of Western Canada will have to busy itself in connection with the weed problem, and the sooner the better for all concerned, and the cheaper in the long run. Public opinion on the question is sadly asleep with the result that a weed official who proceeds to fearlessly do his duty quickly makes himself a most unpopular individual.

Another difficulty to be found is the weakness of so many men to acquire more land. More acreage seems to be their ambition rather than more grain. They seem to be happier with 500 acres yielding 14 bushels to the acre, or 7,000 bushels, than with 350 acres yielding 20 bushels to the acre, or a like total crop of 7,000 bushels, although it is cheaper to plow, seed, harvest and thresh the 350 acre crop than it is the 500 acre one, not to speak of the capital tied up in the larger acreage which, in reality, is producing nothing. Men who are not tilling the land they have as it ought to be tilled, are constantly mortgaging their future to buy more land and more equipment to work that land. Such men are not farmers, but land speculators. The West needs more of intensive cultivation, that is, better farming, rather than more acres brought under the plow.

Relief for Suffering Everywhere.—He whose life is made miserable by the suffering that comes from indigestion and has not tried Parmelee's Vegetable Pills does not know how easily this formidable foe can be dealt with. These pills will relieve where others fail. They are the result of long and patient study and are confidently put forward as a sure corrector of disorders of the digestive organs, from which so many suffer.

England's Arable Area Increased. Since 1915 there has been a steady increase in the arable area of England due to the government policy of encouraging the production of food-stuffs.

A record hay crop is expected this year, but the outlook for the fruit crop is poor. Of apples and pears only 20 percent of the average is expected and the small-fruit crops are also below average.

Cool and Heartless. "Woman! You have ruined me with your extravagance. I am penniless. There is only one place for me now. Good-bye. I'm going!" "Where?" "To the river!" "Well, you'll be passing the post-office. Do you mind posting this letter?"

The High Price of Sugar

makes one welcome foods which are rich in natural sweetness.

Grape-Nuts

—the ready-cooked cereal

requires no added sweetening, for it contains its own pure grain sugar, developed from wheat and barley by twenty hours' baking.

Sprinkle Grape-Nuts over ripe fruit or berries and you'll save sugar.

The Smallest Nation

Monaco Has Thirty Square Miles of Territory and 11,513 Inhabitants

Monaco is the smallest nation on earth, according to statistics recently gathered. The entire area of its territory is eight square miles, and the population is 23,000. It is situated on the Mediterranean. The prince was absolute ruler until 1911, when a representative government was set up. San Marino claims to be the oldest state in Europe. It has thirty square miles of territory and 11,513 inhabitants. Lichtenstein, a small principality in the western border of Switzerland, has a population of only 10,716, while Andorra, located between France and Spain, has only 5,231 inhabitants. It is the smallest independent country as regards population.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Three Thousand Still in Army. Three thousand men who served at the front are still awaiting demobilization and it will be April before all are out of uniform. In Great Britain three hundred men are still engaged looking after stores or attending the operation of two military hospitals. The war purchasing commission is gradually disposing of about \$6,000,000 of military stores.

Minard's Liniment Relieves Distemper.

A Good Record. Granting that we have had our off years we should remember that the average production of wheat per acre in Canada for the last ten years has been 19.25 bushels, while that of the United States has been only 14.72. And that, in spite of all the calamities which drought, hail, wind and frost have brought us.

Overdressed Youth: "Here is a ha' penny for you, my man, and pray tell me how you came to be so miserably poor."

Mendicant: "Ah, sir! I was like you—too fond of giving large sums of money to the deserving poor!"

Montreal, May 29th, '09. Minard's Liniment Co., Limited.

Yarmouth, N. S. Gentlemen,—I beg to let you know that I have used MINARD'S LINIMENT for some time, and I find it the best I have ever used for the joints and muscles.

Yours very truly,
THOMAS J. HOGAN.
The Champion Clog and Pedestal Dancer of Canada.

Hens Must Work

It is a Poor Hen That Will Not Pay For Her Own Feed

The United Farmers of West Zorra, Oxford county, intend to stand no further nonsense from the class of hens known to the poultry world as "star boarders." A hen-culling campaign throughout the whole township will begin, and the otiose birds that refuse to do a decent stint of work will have to go into the pot or the oven, where they will serve a useful purpose. At any time it is a poor hen that will not pay for her own feed, and the present high cost of living for chickens has made it imperative that no mercy shall be shown the ones that will not give an adequate return for what they take in. It is a case of the survival of the fittest, directed by human intelligence instead of natural selection.—Toronto Globe.

DEPENDABLE tires, like good roads, always pay for themselves many times over. Partridge Tires have a supreme hand-built dependability which makes them savers of dollars, time and inconvenience. They are quality from tread to the inside of the casing.

PARTRIDGE TIRES
Game as Their Name

There is Only One Difference Between These Houses—That is

OWNERSHIP

These houses were built at the same time and cost the same. The contractor built one for Harry Duncan. Seeing the good value for renting prospects, the contractor or built a second house and rented it to Tom Sinclair.

Harry Duncan owns his own home; he takes pride in it; keeps it looking fine. His monthly payments are less than Tom Sinclair's rent—whose house would you prefer? Tom Sinclair has no interest in his house; he wouldn't improve it for someone else, and now after five years rent collecting the contractor is selling the house. Tom Sinclair must move, although he has paid enough in rent to buy the house.

There is the difference between renting and owning—there is the difference between spending and investing.

Half Section at \$130 Acre

A record price for land twenty-five miles from Regina in the Pense district is reported in the sale of a half section for \$33,000, or a little better than \$130 an acre.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectually that they pass from the body unperceived. They are not ejected in their entirety but are ground up and pass away through the excreta. They thoroughly cleanse the stomach and bowels, and leave them in a condition not favorable to worms, and there will be no revival of the pests.

The sewing needle is one of the oldest implements used by man. Bone specimens have been found in the reindeer caves of France.

Pigeons carried 709 messages for the K.A.F. between April, 1918, and the armistice, often saving human lives and valuable airplanes.

"Playing the Game"

"Did yuh get anything?" whispered the burglar on guard, as his mate emerged from the window.

"No! I didn't! This dump belongs to a lawyer.

"Geel! that's hard luck!" said the first. Then, as an afterthought: "But did you lose anything?"

Minard's Liniment Relieves Diphtheria

When a man has so much confidence in his automobile that he thinks it can lick a locomotive in a grade crossing encounter, he isn't much of a life insurance risk.—New York World.

PILES

Do not suffer another day with itching, bleeding, or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. Get a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto. Sample box free if you enclose this paper and enclose 2c. stamp to pay postage.

French Honor Memory Of Nurse Cavell

A statue erected as a tribute to Edith Cavell the martyr nurse, was recently unveiled in Paris France. The ceremonies were very impressive and attended by many dignitaries of France. Sister nurses from hospitals of Paris were guests of honor. In the photo are Lord Burnham of England, and General Pau of the French army.

Dentistry For Dogs

The Brooklyn, N. Y. Veterinary Hospital operated by Dr. R. A. McAuslin and his brother Dr. David McAuslin makes quite a success of Dog Dentistry. Dogs have the same dental troubles as human beings, such as toothache, pyorrhea and other ailments of the mouth. Only recently have attempts been made to cure and relieve their sufferings by dentistry. Much of the success in dog dentistry can be laid to the fact that the veterinarians have done everything possible to avoid painful extractions. The speculum, a device placed in the mouth of the animal to be operated on, prevents the dog from biting or even moving his head. The pressure of it is lessened by padding so that there is little if any pain. The device holds the dog's jaws apart while the doctor is working on his molars. This series of photographs shows the method of operating used in the Brooklyn establishment.

NOTICE

To Seed Grain Borrowers in the Municipal District of Stewart 302.

All Seed Grain Loans must be settled in the fall. The grain on hands covered by Seed Grain Loans must be sold in the name of the Municipal District of Stewart, and the grain cheques given to the Secretary-treasurer, until the Seed grain loans are paid in full.

Any person not complying with these conditions will receive the full penalty as provided by law.

Love of The Wild

— BY —
ARCHIE P. McKISHNIE
Printed by Special Arrangements with Thos. Allen, Toronto, Ont.

(Continued)

He walked over to the spring repeating the words over and over—"no more.—Boy and girl no more!"

From Totherside came the clang of the school bell.

"I wonder who she meant, I wonder why she wished that school—I wonder why she wishes Simpson—"

Suddenly he flung the squirrels from him, and bending forward gazed with hard eyes toward the white schoolhouse clinging to the hill.

"If he thinks harm to her, then God curse him," he breathed, "and help me to kill him!"

A wee hedge-sparrow, drunk with the lazy Indian summer sunshine, perched itself on a branch above his head and poured out the simple little song that he had always loved above all other songs of woodbirds.

Because it was always the first song in new spring, the last in autumn.

The little singer was about to leave the wood where he had rested and enjoyed a season's happiness. He was about to fly far south, and was telling a promise to Boy to come back again another springtime.

And Boy listened to the simple song and wondered at the gladness of it. Nothing of the deep unrest of his own soul was there—only the gladness of a heart brimful of God's deep joy.

Boy sat down on a log and watched the bird.

"Little chap," he murmured, "you have got a long way to fly. I guess I know about as well as anybody could know you, unless it's Daft Davie, who's wild like yourself, and I can't understand why you should be glad when you're leaving all this—"

He looked about him. "—All this nestling-place. The great woods have been mighty good to you, little fellow—mighty good. There's a nest you built here, and you've got to leave it behind."

A shadow floated across the lazy sunlight and a cold wind swept from the bay. With a last sweet note of good by the bird sprang to wing, and beating skyward high above the trees faded, a little darting speck in the sombre clouds rolling up in the south.

Boy watched it until it's tiny gray body was lost against the sky's gray fringe. Then he sighed, picked up the squirrels, and proceeded to strip them, deftly, of their glossy coats. This done, he washed them carefully and carried them to the house.

Gloss was standing by the table in the kitchen and spoke to him as he entered.

He answered her almost rudely and strode outside. The lazy light of morning had vanished. The skies had darkened, and a low wind was shaking the dead leaves from the trees.

Boy plunged down the path and into the wood. A shaggy dog, snoozing beside the ash-leach, watched him furtively from half-closed eyes. When Boy's figure disappeared behind the slope, the dog rose, shook himself, and with stiffened muscles trailed his master stealthily.

Deep into the woods, Boy paused before a small grove of baby maples. Beneath their spreading branches stood a playhouse built of rough bark and twigs. He and Gloss had built this house; she, girl-like, to play at mimic life therein; he, boylike, that she might own her little joy. There stood the table, a basswood block, set for a feast, with broken bits of crockery and glass for dishes.

It seemed but yesterday that he and Gloss had sat before that table and eaten an imaginary repast of earth's luxuries from those broken dishes. It all seemed so poor, so lonely, and deserted now.

In the twill high-chair slept Peggy, the rag doll, her arms dangling, her

IF CRIPPLED WITH A LAME BACK READ THIS

Tells All About a Safe Medicine That Relieves After One Dose

That throbbing pain at the base of the spine is caused by improper kidney action. Fix up the kidneys and the backache goes in a hurry.

The most wonderful kidney medicine ever made is Dr. Hamilton's Pills. They contain the juices of certain herbs which soothe and heal all kidney illness. It's a pleasure to use Dr. Hamilton's Pills. They relieve after the first dose, give you a new feeling entirely, remove that dull, throbbing backache, correct urinary disorders, stop headaches, and vague pains through the muscles and joints.

Forty years of success stand behind Dr. Hamilton's Pills, which are prepared in the laboratories of the famous Catarthozone Company, and can be depended upon as a safe, swift, and certain cure for Backache, Kidney, Liver, Stomach, or Bladder Troubles. Sold everywhere in 25c boxes.

which attitude one of peaceful repose.

Boy crept up shamefacedly and swept the crumbs from her poor little plate. Then he sat down on the stump, and, laying his arms on the table, rested his head upon them.

In the open the clouds scolded low above the trees, and it began to snow. Boy arose and walked about the little house, his eyes searching it for the small trinkets the girl had treasured there. A bunch of dead flowers rustled in the cracked cup on the bark shelf. They were tied with a gorgeous bit of red fannel, which, he remembered, Gloss had been careful to explain was watered silk.

Boy smiled, and pressed the knot between his fingers.

On the floor lay a home-woven straw hat. Its decorations, too, were of woodland flowers faded to ashes and scentless. Boy caught it up and held it at arms length; then he threw it from him and sprang out into the darkening wood again.

He hurried on, passing the tree-swing where he and the girl had played so many summers. He passed through the hickory grove where they had gathered the nuts for the winter's cracking; through this and to the heavier timber and deeper shadow where the light was very dim and forest whispers stirred and vibrated.

A fox glided across his path, switching into a clump of hazel-bushes. A cock grouse, drumming upon a decayed log, arose on thundering wing to dip into a clump of trees for to the left. Farther into the wood the cluck of a wild turkey sounded. Boy heeded none of these things. On and on he strode—his an aimless goal; his one desire, to come up with that something urging and elusive—something he feared though treasured and could not understand.

Later, he stood in the low-lying wilderness of Elm Swamp. And there, perhaps, his great Mother pityingly solved for him the problem of a new unrest. There where day's lights wavered faintly like foggy starlight, his soul shook off its brooding, and the old glad fearless light came back to his eyes.

"No, we ain't girl and boy no more," he whispered; and lifting his arms high he laughed.

What he had received from the forest soothed his spirit as the starry snowflakes, falling on his upturned face, soothed his burning flesh.

At mid-day the setter crept back to his old place by the ash-leach and lay down. A little later Boy came up the path. He stooped down and patted the dog's head, and noting his tangled hair laughed softly.

"Joe, old pup, I thought it was me who had to roam among the briars and burrs, but I see you've been there, too."

And Joe looked up and yawned sleepily, just as if he had been awakened from his forenoon's nap.

Boy ate his dinner in silence. When he arose he glanced at Gloss. She was standing before the window, and Boy saw her perfect face, crowned by a mass of heavy chestnut hair, cleared against the light of an outer world. Her great eyes were looking into space; she was dreaming. The young man sought the open with curging pulse. The whistle of Hallibut's mill sounded its challenge, and,

squaring his broad shoulders, he laughed. Something new had come to him. Not strength; though strength was of it. Not defiance; though it help the power to defy. Boy did not attempt to define that new thing; it was enough for him to know that he possessed it. (To be Continued.)

Canadian Authors Praised

New York Publishers Anxious to Get Their Works

Vancouver, British Columbia—Professor W. T. Allison, professor of English in the Methodist College in Winnipeg and a well-known writer and literateur, declared in an interview at Vancouver that "Western Canada is producing more writers to-day than all other parts of the Dominion put together."

He said he hoped the day was near when Canadians would give their own novelists practical support by buying their books. He thought the fiction produced by some Canadian writers was equal in literary excellence to any works of fiction being produced in the United States.

"The fact that the New York publishers are showing eagerness every year in reaching out for works by Canadian writers is a significant sign of the times," he declared.

City Council Doings

To put through the license reduction will require some tall hustling. Meantime lots of corn will be tramped on. The cure is "Putnam's," the old reliable corn extractor that has been curing corns and warts for years. "Putnam's" never fails, 25c at all dealers.

Prices Cannot Go Down

Canadian Farmers Will Make Fine Profits This Year

Addressing the Kiwanis in Winnipeg, Robert Magill, secretary of the Canadian Grain exchange, said: "Europe in the next twelve months must depend upon the North American continent for its wheat, and the only country today with high-grade hard spring wheat is the Dominion. Where is the price of wheat going? Well, it cannot go down much. The world, you know, is short on wheat and very long on paper money and credit. Canadian farmers this year will make fine profits for all the wheat they harvest."

Not A Blemish

Not a blemish on the perfect appearance of her complexion. Permanent and temporary skin troubles are effectively concealed. Reduces unnatural color and corrects greasy skin. Highly antiseptic, with beneficial results as a curative agent for 70 years.

Gouraud's Oriental Cream

For Sale at Drug Stores

FERD. T. HOPKINS & SON, Montreal

For Colds, Pain, Rheumatism, Aching Joints, Lumbago, Sciatica, Neuralgia, and for Headache, Neuritis, Toothache, Earache, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package. There is only one Aspirin—"Bayer"—You must say "Bayer!"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

Pure Drinking Water

Should be Boiled for Fifteen Minutes In Uncovered Kettle

Unless one is absolutely sure of the purity of the drinking water it is a good idea to boil the water.

In order to kill any germs lurking in the water it should be boiled for 15 minutes in an uncovered kettle. The impurities are driven off by the heat and escape through the steam.

Air coming in contact with the water oxidizes it and prevents it from having a flat taste.

Beware of well and spring water that has not been analyzed.

State of Ohio, City of Toledo, Lucas County—ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for any case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

(Seal) A. W. Gleason, Notary Public.

HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System.

Fish Fry for Jasper Park

A systematic plan for restocking lakes in Jasper Park with trout has been inaugurated by Col. S. Maynard Rogers, Superintendent of the park.

During July 18,000 trout fry have been received from the Government hatcheries and placed in lakes Pyramid, Patricia, Annette and Edith. All of these lakes are well suited to fish propagation and are within easy distance from park headquarters.

Queen Victoria was among the first in England to relinquish the franking privilege.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

BRITAIN ISSUES A WARNING TO BOLSHEVIKI

TO STOP POLISH ADVANCE

Great Britain and Allies May Be Forced to Declare War On Russia

London.—According to the Herald Premier Lloyd George, during a conversation with M. Krassin and Kameneff, presented an ultimatum to the Bolshevik representatives demanding an immediate and unconditional cessation of the Russian advance into Poland, even before signing an armistice, or otherwise Great Britain would declare war.

The newspaper declared that the British note sent to Russia is of a threatening character.

The Daily Mail also reports that the note is in the nature of an ultimatum. "It says plainly," asserts the newspaper, "that Poland is being over-run, and if, instead of hastening an armistice, the Bolshevik armies continue to advance, the situation foreseen in the note of July 20 will have arisen, and Great Britain and her Allies will be obliged to assist in the support of Poland."

The Daily Mail also declares that the Prime minister indulges in some frank talk about the Red advance, to Kameneff and Krassin.

Scores Sir Eric Geddes

Jellicoe Declares That Latter Made Complete Fiasco of the Admiralty Plans

London.—Lord Jellicoe's new war book, which discusses the administration of the British admiralty, has created some sensation by its disclosures affecting Sir Eric Geddes as First Lord of the Admiralty.

Lord Jellicoe's book says Sir Eric appointed hordes of civil officials, incurred huge expense, disorganized the admiralty in the mist of the submarine war and then made a complete fiasco of the admiralty's building program, which was his special care. It is pointed out that Sir Eric's achievements as minister of transports has been the exact counterpart of this.

Wheat Certificates

Winnipeg.—The first payment of a participation certificate issued by the Canada Wheat board has been made. Approximately 900,000 certificates have been issued, it is said, and the first participation is at the rate of 30 cents per bushel. A second payment of at least ten cents per bushel is expected. The first disbursement will amount to \$30,000,000 or \$35,000,000, according to members of the wheat board.

Japan Puts Larger Forces in Korea

Tokio.—Japan will increase her garrison forces in Korea by 4,800 men, owing to the unsettled conditions, it was announced here.

Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become rundown and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness. No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont., writes—"I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Release Strike Leader

Winnipeg Labor Men Obtain Freedom of John Farnell

Winnipeg.—John Farnell, one of the Winnipeg strike leaders who was given a prison term of nine months for seditious utterances, is to be released at once. News to this effect was contained in a telegram received by E. Robinson, secretary of the Trades and Labor Council, from Tom Moore, president of the Trades Congress, who stated that he had been officially notified by the under-secretary of state that a wire had been sent to Winnipeg ordering Farnell's release forthwith.

Farnell has been in jail for about six months, so that three months are being lopped off his sentence.

The news comes as the culmination of quiet but effective work of the labor leaders to get Farnell out of jail in view of the poor health of his wife and the baby that was born after the father was imprisoned.

Propose Stiff Penalties

\$2,000 Fine or Jail for Intemperance In Ontario

Toronto.—It is believed that as an outcome of a conference held at the parliament buildings between Police Magistrate George T. Dennison, of this city, and Attorney-General W. E. Rancey, that \$2,000 fines for breaches of the Ontario Temperance Act, as well as imprisonment may become fairly common in the Toronto police court. So far, heavy fines are uncommon.

It is understood that Magistrate Dennison was instructed on lines similar to the notices sent out by the attorney-general to the magistrates throughout the province to the effect that prevention, not revenue, was the object of prosecutions for breaches of the Ontario Temperance Act, and suggesting imprisonment as a means to this end.

Damage from Hessian Fly

Ontario Counties Report Damage to Fall Wheat From Pest

Toronto.—Serious damage has been done to fall wheat crop by the Hessian fly, in a number of counties in the southwestern section of this province, according to reports received by the Ontario department of agriculture. Reports from Norfolk state that some fields there suffered from 4 to 50 percent of damage from the insect. Barley has headed well, but the straw is short. Oats promise a generous yield with plenty of straw. Spring wheat has not done so well as the other grains mentioned. Owing to continued catchy weather, a good deal of hay is still lying in the fields and as a result there will be considerable poorly-cured clover and timothy.

With the Gentle Bolsheviks

Wearing of a White Collar Results In A Death Warrant

Allenstein, East Prussia.—Threats by the Russian soviet forces to execute instantly any civil or military subjects of the allied powers who pass the frontier, are reported by refugees arriving here from the region to the east being occupied by the Russians. This has caused the inter-allied commission in the district to announce no person will for any reason be permitted to enter the Russian controlled zone.

The refugees declare that the Bolsheviks are shooting all landowners and property holders and others suspected of having money. The wearing of a white collar of any sort is sufficient evidence for a death warrant. Officials of the inter-allied commission declare that the majority of these reports are supported by circumstances indicating their truth.

High Wages Hit Farmers

Montreal.—That there is a scarcity of agricultural labor, and further that such labor as is offered, commands unheard-of wages, was the consensus of opinion of the many farmers who met at St. Norbert, Berthier county, on the occasion of a demonstration of labor saving haying machinery.

TRANS-ATLANTIC SERVICE BY GIANT DIRIGIBLE

TO CROSS OCEAN IN 50 HOURS

Germans Are Building Airship To Equal The Finest Ocean Liners

Paris.—The giant new trans-Atlantic air line which German private enterprise is planning to establish will be operated with dirigibles greater than any which have heretofore been flown. They will have 300 cabins, each with two beds, and will be equipped with kitchens, lounging saloons and promenades, the equal of those provided on the finest ocean liners.

It was learned here that the ships will be from the basic designs of the German inventor, Boerner, whose crafts were said to be the models of the R-34—the ship in which British airmen sailed across the Atlantic ocean and back last summer.

The new dirigibles will be to 800 feet long, 80 feet wide and 100 feet high. The envelope will be semi-rigid, and the car will extend almost the entire length of the ship. Motive power will be furnished by 34 gasoline motors, each of either 150 or 200 horsepower, arranged so the ship can be navigated in all directions, without employment of ballast. The arrangements are such that a complete power breakdown or an explosion will be impossible.

The dirigibles will be equipped to make a 4,000 mile non-stop flight at an average speed of 68 miles per hour. The dirigibles will be designed to land in water, and in that element will have a speed of 35 miles. The flight time from Germany to New York will be approximately 50 hours.

Herr Colmsan, director to the Zeppelin factories, will be the general manager of the new enterprise.

Man Without a Country

Premier Hughes Will Prevent Return Of Mannix to Australia

London.—Messages from Australia quote Premier Hughes as saying that Archbishop Mannix would not be allowed to return to Australia.

In an address at Melbourne, Australia, Premier Hughes severely attacked the archbishop, whom, he declared, was responsible for much of the present sectarian bitterness now prevailing in that country. Mr. Hughes stated that Archbishop Mannix does not represent Australia or the Irish nor any other question, and is the acknowledged Sinn Fein leader in Australia.

Polish Army Demoralized

Bolshevik Columns Enveloping Warsaw From The North

Paris.—The Bolshevik forces apparently have scored a great military victory over the Poles, who are reported to have been forced to abandon the Bug River line and possibly will be compelled to relinquish Warsaw.

According to the latest reports to reach Paris, the Polish army, for the time being at least, has gone to pieces and the Bolshevik columns, advancing in echelon in accordance with approved German technical style are enveloping Warsaw simultaneously from the north and east. The Bug River line, Poland's Marne, has gone almost without a fight, compelling the Poles to make a rapid retreat and shorten their front, which some of the military experts believe will be likely to bring the Poles into the Vistula and San Rivers, and involve the abandonment of half of the country to the invaders.

Freight Increases in U. S.

Washington.—The American travelling and shipping public may expect to begin paying the increased passengers' fares and freight rates authorized by the interstate commission August 26, the railroads have announced.

W. N. U. 1328

Send Greetings to Britain

United States Sends Message on the Sixth Anniversary of Entry into War

New York.—Greetings on the sixth anniversary of Great Britain's entry into the war were cabled to Field Marshal Earl Haig and Admiral Sir David Beatty by Franklin D'Olier, national commander of the American legion.

"Honor to the statesmen who had the courage to assume responsibility of that decision," reads the message. "Honor to the British Millions who with valor unsurpassed and hearts of oak, executed that decision on Britain's many fronts. When we contemplate what would have been the state of affairs in the world today had not Britain acted as she did, the trials and difficulties of life present hour, however vexatious they may seem now to be, sink into comparative insignificance."

"United States forces have had the privilege of service on land and sea under British high command. The memories of the associations of these great days will never perish. They will perpetuate themselves in our hearts and thus serve to perpetuate the indissoluble friendship of the British and American peoples."

Coast to Coast by Plane

Progressing With Survey of The Cross Canada Air Route

Winnipeg.—Surveying of a coast to-coast, aerial route for commercial aviation, recently undertaken by the Dominion government, is practically completed in certain districts and within a year's time, trans-Canada flying will be inaugurated, according to the statement of Major R. D. Hobbs, inspector of civil aviation, of Ottawa, who has arrived in the city.

Major Hobbs said that the development of commercial aviation is dependent on a through route from coast to coast. The most difficult stretch of country between Winnipeg and Sudbury is almost completed. "When we have covered the mountain passes and found adequate landing stages, the surveys will be almost completed. Within a year's time we should have a regular coast to coast passenger service," he declared.

Murders in New York

Homicide Record of 52 Murders In Seven Months Is Unparalleled

New York.—Fifty-two murders have been committed in New York City during the seven months since January 1, setting a homicide record unparalleled in many previous years, it was stated at the district attorney's office.

In the six convictions returned in these cases, none have been for murder in the first degree, in 16 of the 52 murders no arrests have been made.

May Sit in West

Railway Commission Likely to Hold Sessions in Both East and West

Ottawa.—In addition to the opening hearing by the railway commission of the application of the express companies for an increase of forty percent, in rates to be held at Toronto on September 2, the board has decided to have other sittings, both in Eastern and Western Canada. The dates and places where evidence will be taken will be announced later.

In connection with the objection taken to the proposal to confine the hearing of the application of the railways for thirty percent increase to be held at sittings in Ottawa, it is probable that the board will give consideration to the west also, and make an announcement at an early date.

Turks Against Greeks

Constantinople.—Turkish Nationalist forces opened a bitter offensive against the Greeks along a sixty mile front in Asia Minor on Monday. The battle line extends along the Bagdad railroad westward from Kutahia to Simav.

LUXURY TAX ADDS MILLIONS TO REVENUE

A 100 PER CENT. INCREASE

Some Tangible Evidence Of What New Taxation Scheme Is Bringing in

Ottawa.—The effect of Canada's new luxury taxes are somewhat clearly shown in the excise tax figures available. These taxes include luxury, sales, and manufacturers' tax and while it is impossible to give exact figures on the actual amount of luxury tax, it is safe to say that already several millions have been added to the country's income as a result of Sir Henry Drayton's 1920 budget.

Collections from all sources of the inland revenue branch for July amounted to \$9,982,051 as compared with \$4,356,452 for the corresponding month of last year or an increase of \$5,625,599, which is more than one hundred percent increase.

On the excise tax side the amount collected last month totalled \$6,944,457 as compared with \$969,299 for the same month last year. This is another abnormal increase which reflected the effect of this year's legislation.

Good Fishing Season

Record for First Six Months Shows Increase Over Last Year

Ottawa.—Canadian fisheries, both in amount of product and value, made a good record for the first six months of the year ending June 30. Sea fish landed on both coasts amounted to 2,837,424 cwt, valued at \$10,564,146. For the same period last year the catch totalled 2,546,773 cwt, valued at \$9,939,495 or \$1,170,651 less than for the first six months of the present year.

Of the total catch for the six months 1,974,362 cwt, valued at \$7,294,459 were taken from the Atlantic and 862,962 cwt, valued at \$3,269,687 from the Pacific.

Druggists Warned

Toronto.—Druggists have been warned by the Ontario college of pharmacy, than any druggist convicted of contravention of the Ontario Temperance act, will lose his certificate and be prevented from acting as a member, director or shareholder of any incorporated company dealing in drugs or medicines in Ontario.

NOTHING LIKE IT FOR BRONCHITIS AND WEAK THROAT

Remarkable Cures in the Worst Cases Reported Daily

Cures Without Using Drugs
Doctors now advocate an entirely new method for treating bronchitis and irritable throat. Stomach dosing is no longer necessary.

The most approved treatment consists of a healing vapor resembling the pure air of the Adirondacks. This soothing vapor is full of germ-destroying substances, and at the same time is a powerful healing agent. It is sent to the bronchial tubes and lungs through a skillfully devised inhaler that can be carried in the vest pocket. Simplicity itself is the keynote of this splendid treatment.

CATARHROZONE is the name of this wonderful invention that is daily curing chronic cases of weak throat, bronchitis and Catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs, it can't fail to cure because it goes where the trouble really exists, and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. Catarrhrozone is a direct breathable scientific cure.

There is no suffer from a grippy cold or any winter ill, that won't find a cure in Catarrhrozone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and costs \$1.00 and is guaranteed; small size 50c, sample size 25c, at all druggists and dealers, or the Catarrhrozone Co., Kingston, Canada.

Savings Certificates

ALBERTA
6 PER CENT.
GOLD BONDS

How Are You Investing Your Savings?

¶The Province of Alberta offers two splendid forms of investment---Savings Certificates redeemable on demand, paying 5% interest compound half-yearly.

¶And Ten-year Gold Bonds paying 6% interest payable half yearly by coupon.

Alberta Gold Bonds may be obtained from any recognised bond house in the Province of Alberta.
Address all communications to Deputy Provincial Treasurer.

HON. C. R. MITCHELL,
Provincial Treasurer

¶There is No Investment Safer or Better.

¶Savings Certificates help you to build up a Savings Account---Alberta Gold Bonds are the best form of investment in which to place those Savings.

W. V. NEWSON,
Deputy Provincial Treasurer,
Parliament Buildings, Edmonton, Alberta.

SEEKING NEW BANKERS.

Canadians Make Fewer Deposits In Postal Department.

There is at least one money-saving institution in the Dominion which is waning and not waxing. It is the post office savings bank, and while the amount of money deposited in this institution is not rapidly declining, it has, however, during the last few years steadily diminished, the total now being \$35,810,419, compared with \$42,728,945 six years ago---a decline of \$6,918,526.

The explanation of this decrease is, of course, the increasing tendency on the part of the Canadian people to deposit their savings with the chartered banks of the country. And there is more than one reason for this tendency. In the first place, the chartered banks afford easier facilities for both opening accounts and withdrawing deposits. In the second place, banks are more numerous than post offices, there being, in addition to the head offices, something like 2,500 branches scattered throughout the country. As a matter of fact, a branch bank is to be found within a few minutes' walk of most city and town homes. Still another factor that is helping to turn deposits from the post office to the chartered banks is the newspaper advertising which the latter employ for the purpose of attracting savings.

While during the six-year period there was a decline of 16 per cent. in the savings deposits with the post office, there was, on the other hand, an increase of over 100 per cent. in those with the chartered banks, the latter amounting to \$1,252,746,984, compared with \$626,199,470 at the close of 1913.

The post office savings banks have, however, well served their time and generation, having come into existence 52 years ago, when there was great need of them. Great Britain, the mother of the postal savings bank system, only preceded Canada in their establishment by about seven years. As a matter of fact, Canada is one of the pioneers in respect to the postal savings bank system, none of the other countries of Europe having adopted it until some years after she had made her first venture.

CUTICURA HEALS BABY'S FACE

Could Not Sleep Eruption Itched and Burned So.

"I noticed a little pimple on my baby's face. I thought it was from the sun but it kept getting worse and the skin was red and very hot. He could not sleep or rest the eruption itched and burned so, and it caused him to scratch. I was quite discouraged.

"I saw an advertisement for Cuticura Soap and Ointment and sent for a free sample. I bought more and after using two cakes of Cuticura Soap and two and a half boxes of Cuticura Ointment he was healed." (Signed) Mrs. S. D. McGuire, Clarkburg, Ont., Dec. 18, 1918.

Use Cuticura Soap, Ointment and Talcum for every-day toilet purposes. Soap 25c, Ointment 25c and 50c, Sold throughout the Dominion. Canadian Depot: Lyman, Limited, St. Paul St. Montreal.

Use Cuticura Soap, Ointment and Talcum for every-day toilet purposes.

Woman Makes Nitroglycerine

Probably the only woman in North America engaged in the manufacture of nitroglycerine is Mrs. Clare W. Stokes, of Petrolia, Ont., whose factory turns out large quantities of the material, used principally in torpedoing oil wells.

As a verminicide there is nothing so potent as Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

The weekly trade report of the Canadian Credit Men's Association gives several interesting points. One is that many lines of goods are now coming forward from factories more freely. Another is, that prices as a rule, are remaining firm—the only exception being in boots.

Youth and Age

THERE is no time in woman's life that she cannot benefit by the use of Dr. Chase's Nerve Food in order to keep up the supply of pure, rich blood and to ensure a healthful condition of the nervous system.

Headaches, neuralgia, sleeplessness, nervous spells, irritability, tired, worn-out feelings, soon disappear when the vigor and energy of the nerves are restored by the use of this great food cure.

Is the Price of Lumber Going Down?

Read the Following Facts and You Can Then Judge For Yourself

A fear of paying too much for lumber and the hope of an immediate or near future decline in the price of building material has caused many to hesitate building. That these fears are groundless and that the alternative of a higher lumber price is more likely is pointed out in detail in the following paragraphs.

This fear causes hesitation and by hesitating people are gradually adding to the congestion of the lumber situation which is already serious.

A thorough investigation of the lumber situation brings out some startling facts relative to the cost of production.

Lumber is made from logs. Logs must be cut. Cutting takes labor, and labor is high. There is the A. B. C. and the C. of the whole situation.

Logging camps are operating eight hours daily in place of ten hours, as formerly, yet paying the more wages. Sawmills are operating 50 hours weekly in place of 60 hours. Wages increased 20 percent over and above the time changes.

Railway freight rates increased 25 percent, and lumber requires long hauls.

Wire rope, logging machinery, the camp supplies have increased up to 300 percent.

Mill supplies and equipment have increased from 100 percent to 300 percent.

Towage rates increased 100 percent.

Government royalties increased 50 percent.

Fares of loggers going and coming from camps increased.

The fringe of the forest is being clipped. Lumber must be hauled further and from deeper recesses, not as accessible as formerly.

Every condition and factor that enters into the cost of producing the finished article has jumped enormously since 1914-15. These increases and their ever climbing habit precludes any drop in the cost of lumber. It rather makes a most desirable purchase at the present price and an actual investment when put into a house.

The question of further increase of freight rates, supplies, wages, etc., enter into and make uncertain the prices of lumber.

The house shortage at the present time is caused to a certain extent by the hope that the cost of building would make a descent. The above figures are convincing evidence of the futility of waiting. Act now! Build now!

Minard's Liniment Relieves Colds etc

An Interesting Find

Skeleton Two Thousand Years Old Discovered

A skeleton, buried at least 2,000 B. C., probably nearly 3,000 B.C., has been unearthed near Peterborough, England, by a local antiquary. The body, which may be of the bronze age, was buried in a crouching position, with the head to the north and feet to the east, while the hands were pressed against the chin, the right hand being underneath the right cheek.

A peculiar circumstance is that the burial was some five feet deep and had been made at the bottom of a ditch forming a circular entrenchment. No relics were found with the skeleton, which is that of a female, 25 to 30 years of age.

Great Waste in Timber

It is estimated that the material discarded in the timber industry in the United States each year might be made to provide 40,000 tons of paper, 3,000 tons of resin, 600,000 gallons of ethyl alcohol and 300,000 gallons of turpentine.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will cure lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that its touch is magical, as it is.

The Miracle Worker

What is the Unhappy Farmer to Do With the Double-Jointed Advice

After spending ten years teaching the dry belt farmer that he should work the surface soil into a fine mold to retain the moisture, the agricultural experts are now starting to tell him that he must have the surface covered with clods to keep the wind from blowing the soil away. And the disconcerting feature is that there is reason in both arguments. If the dry belt farmer can do both he will likely get a crop, and will certainly deserve one.—Edmonton Bulletin.

A little Dandering, cools, cleanses, and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the famished hair roots, revitalizing and invigorating every hair in the head, thus stopping the hair falling out, getting thin, scraggly or fading.

After a few applications of "Dandering" you seldom find a fallen hair or a particle of dandruff, besides every hair shows more life, vigor, brightness, color and thickness.

A few cents buys a bottle of delightful "Dandering" at any drug or toilet counter.

Penalized for Doing Right

Americans Serving in Canadian Forces Will Lose Their Citizenship

Men who, when citizens of Massachusetts, enlisted in the Canadian and other allied forces prior to the entry of the United States into the war have lost their citizenship and cannot vote, according to an opinion handed down by Attorney-general J. Western Allen, at the request of Secretary Langley. They can regain their citizenship by taking the oath of allegiance.

No one need endure the agony of corns with Holmway's Corn Cure at hand to remove them.

FREQUENT HEADACHES

A Sign That the Blood is Watery And Impure

People with thin blood are much more subject to headaches than full-blooded persons and the forms of anaemia that afflict growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.

Whenever you have constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do so effectively and the rich red blood made by these pills will remove the headache.

More disturbances to the health are caused by thin blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are undernourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Prairie Strawberries

Flavor Much Better Than That of the Coast Berries

Angus McDonnell, of Ray, brought to the Bulletin office on Thursday a box of strawberries grown in his garden. All the berries were large, but one of them measured four and a half inches around. The berries are of the ever-bearing variety. Mr. McDonnell set out 75 plants last season, in ground that had been fallowed the year before. They were placed in two rows. The rows were two feet apart, and the plants were two feet apart in the rows. They grew well last season and some blossoms came but they were not allowed to produce fruit. No mulch was placed over the plants last fall, but they wintered safely. They have had no fertilizer this season but have been carefully weeded and hoed. They are fruiting abundantly, about a box of berries to a plant. The flavor is excellent, being much better than that of the coast berries as they come on the market here—Edmonton Bulletin.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

Immigration Figures

Canada is Getting 18,000 Immigrants Each Month

British immigration to Canada so far this season is about double that coming in from the United States. Of an average influx of about 18,000 a month 12,000 are coming from the United Kingdom and 6,000 from the United States.

The newcomers from the old country are mostly English. Out of an arrival of 12,500 in the last month tabulated, over 8,000 were English; 3,000 Scotch; less than 1,000 Irish and 150 Welsh.

The new immigration restrictions requiring careful selection are rejecting about 1,800 a month, while about 30 or 40 are deported for criminality or other disqualifying conditions.

Minard's Liniment Relieves Garget in Cows.

Plane Leaves for Far Northland

The great naval scaplane of the Canadian Aero Film company left Toronto recently on its 800 mile trip to Hudson Bay, where pictures will be taken for the provincial government, and a survey made for the Dominion government. The plane can travel at a speed of 90 miles an hour. Stops will be made at North Bay, Cochrane and Moose Factory. The plane is going to the Belcher Islands on the west coast of Labrador in the bay.

Asthma Cannot Last when the greatest of all Asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has countless cures to its credit which other preparations have failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

China and Women Soldiers

China had women soldiers long before they were known in Russia. During the Tae Ping rebellion 1,850 women—as well as men served in the ranks. In Nanking in 1853 an army of 500,000 women was recruited. They were divided into brigades of 13,000 each and were commanded by women officers.

ONE WOMAN'S EXPERIENCE

Of Interest to Childless Women

Toronto, Ontario.—"I suffered for a long time from a female weakness, inflammation, and a terrible backache caused by that condition. One day one of your booklets was left at my door, and I read how other women with troubles like mine had been well, so I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash, and it helped me wonderfully, and I now have the finest little baby boy that any mother could want. I want to recommend Lydia E. Pinkham's Vegetable Compound to any woman who has female troubles."—Mrs. JOSEPH LA BELLA, 778 Shaw Street, Toronto, Ontario, Canada.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong, and this good old fashioned root and herb remedy contains no narcotics or harmful drugs.

**Hillanvale Dance
 Is Big Success**

The hard-times dance and social held at the Hillanvale schoolhouse on July 6th, was a grand success. The schoolroom was taxed to its utmost to its utmost to provide room and seats for the number of people who came from the surrounding district, Monitor furnishing a goodly quota.

The costumes were, as usual on such an occasion, very varied ranging from the tidy house dress to the emergency dress of sackcloth or sugar bags. Dancing, to the sweet strains of two violins was the order of proceedings till supper was announced. The cakes and sandwiches though as varied as the costumes, had nothing of hard time about them. Tea and coffee were also served. Throughout the evening a large barrel of "free-for-all lemonade was much appreciated. After supper, court was held

Mr. J. Mitchell, Judge L. O. Gould, Attorney-at-law. Mr. Ray Barnes constable, (with several able assistants) Several ladies and gentlemen were arrested and charged with breaking the laws and were fined heavily, much to the amusement of those who escaped the penalty. Then followed the judging for prizes for costumes. Mr. Ray Barnes secured the gentlemen's prize, while Mrs. Alex Foster was awarded the ladies. After a few more dances and a recitation by Mrs. Foster, morn appeared in the eastern sky, and the tired but happy gathering dispersed to their homes.

The proceeds were given to the fund for the Organ for the Church and school use.

Contributed.
